

A Checklist for our Rockin' Rockets Program

Please email or make copies of this brief checklist to give to each participating teacher, it will help them to prepare for our visit.

-  Be aware of YOUR start time
-  Be aware of YOUR end time (60 minute program)
-  Divide your students into teams of 3 (please rearrange desks and clear them BEFORE we start); Agree upon an outdoor area where the launches will take place
-  RESCHEDULE your lunch time so as not to conflict with YOUR PROGRAM TIME

We plan to arrive in your classroom 5-10 minutes ahead of your scheduled time just to unpack our materials. We hope our presence will not inconvenience you.

Once again, we thank you for allowing us to share our unique hands-on programs with your students.
