

# Science Eye

*Job Opportunities Available Now!*

## *Science Education Instructor/Consultant*

Science Eye, a science and environmental education consulting company located in Broward County but travels to Palm Beach and Miami-Dade counties, is looking for passionate and dedicated part-time science education consultants/instructors/educators. This position is ideal for those interested in teaching hands-on life, physical, Earth and cultural sciences in the classroom and literally within the habitats of the Everglades, including aboard an airboat, and at the beach. To learn more about Science Eye, go to [www.ScienceEye.com](http://www.ScienceEye.com).

### **Job Summary**

This is a part-time position that implements school district science standards through hands-on, inquiry-based, experiential programs that enable students to explore the world around them, gain new insights and make them aware that science is an exciting part of everything they do. We work with public and private schools as well as homeschools, Scouts and other groups who want science education programs.

Our goal is to have fun while instilling self-confidence, develop critical thinking skills and to create a positive relationship with the environment. We don't just do S.T.E.M., Science Eye goes full S.T.E.E.M. ahead (Science technology Engineering Environment & Math)!

### **Qualifications**

- Bachelor's degree or working on a degree in a science, an environmental field or education
- Valid Driver's License
- Ability to pass a fingerprint background check to work with children ages 3-18 (majority are K-8<sup>th</sup> grade)
- Competence in, or willingness to quickly learn, various science topics and concepts
- Competence in, or willingness to quickly learn, driving an airboat (no special license required, only a valid driver's license)
- First Aid/CPR/AED certification (or willingness to obtain)
- Means to carry a few plastic bins/water coolers/equipment and travel throughout the three counties of Southeast Florida (~80%+ is in Broward County, ~11% is in Palm Beach, ~ 8% in Miami-Dade)
- Timely, responsible and dependable

To successfully perform within this position, applicants should have the following knowledge, skills, abilities, and/or competencies:

- Professionally committed; genuinely interested in child development; dynamic, enthusiastic and engaging personality; highly developed interpersonal skills; highly developed oral communication skills
- Ability to work independently
- Skilled (or willingness to learn) to effectively and appropriately communicate, keep safe and control groups of youth and adults (many techniques will be taught during training)
- Ability to work in physically demanding environments; ability to withstand Florida's weather for the length of a school day
- Ability to work with children who possess a diverse array of learning modalities; ability to change styles of teaching to fit the needs of the group or individual (or willingness to learn skills)
- Ability to be authoritative in situations when it is needed
- Ability to let "your inner child" out

### Physical Requirements

Must be able to work in adverse physical and weather conditions found in Florida throughout the year. On field days, consistently exposed to outdoor biological and physical elements present at the beach and in the Everglades; possibly other field locations may be scheduled. There is some heavy work lifting bins and water coolers in and out of your vehicle and setting up equipment, on occasion up to 50 pounds, usually less.

### Terms & Employment

Part-time starting at \$12/hour, based on experience. Training and summer pay differs. The length of the work year is September through May. Most programs are Monday – Friday during the school day, approximately 7:00am – 4:30pm depending on the school (elementary school days are typically 8am-2pm, middle school days are typically 9:30am-3:30pm and high school days are typically 7:30am-2:30pm). There are occasional after school, evening and weekend programs. There are opportunities for programs and science camp over the summer months as well.

### How to Apply

- Go to <https://tinyurl.com/ScienceEyeEmployment> and fill out the online application and click submit
- Email [enviroedu@ScienceEye.com](mailto:enviroedu@ScienceEye.com) your cover letter and resume (Please title these documents: with your first and last name, underscore, and which it is [cover letter or resume], so for example the 2 documents would be DawnWalker\_CoverLetter and DawnWalker\_Resume). If you submit any recommendation letters or other documents, please use the same format.

Working with us will offer you a unique opportunity to experience teaching, gain significant insights into the field itself and build a wealth of environmental teaching strategies. Interviews will begin mid-August. Training will begin in September. Some school programs begin in September, most begin in October. If you have any questions, please email me at [enviroedu@scienceeye.com](mailto:enviroedu@scienceeye.com).

Thank you,

Dawn Miller-Walker, Owner/Consultant/Educator
