SCIENCE IS
IN THE HANDS
OF OUR FUTURE

Instilling a passion for science in order to grow!
www.ScienceEye.com ~ enviroedu@scienceeye.com ~ 954-680-7977

Since 1985 our science and environmental educators have taught over a half million teachers and students about the Everglades, beach, forest, desert, rocks & minerals, fossils, comets, rockets, insects, American Indians and much more! We work with formal educators, informal educators, home schools, Scouts, camps, people with disabilities, parents and various organizations and clubs for in-school, out-of-school, "science night", teacher development, special weekend and birthday programs. It has been our passion, and pleasure, to educate, advocate and promote science and environmental conservation to ensure the responsibility and sustainability of our environmental resources and to encourage stewardship for future generations.
