

Science Exploration

by Science Eye ~ www.ScienceEye.com

Supply List

The list on the left are the items needed for each class. The list on the far right is what can be shipped to you for an additional cost, noted on the registration form. Some items are to enhance the hands-on component during class or for follow-up after class.

Note: If you are not choosing to have items for a program shipped, the journal and templates (when needed) will be emailed a week prior to class for you to print front to back.
